DETAILED ACTION

Election/Restrictions

1. Claims 1 thru 3, 5 thru 19, 26 thru 30, and 45 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claims 20-25, and 31-40, directed to another species, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Claims 1 thru 3, 5 thru 40, and 45 are allowable. The restriction requirement between species, as set forth in the Office action mailed on 6/24/08, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 20-25, and 31-40, directed to another species are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 41 thru 43, are withdrawn because it does not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 41 thru 43, previously withdrawn from consideration for being drawn towards a non-elected invention, have been cancelled.

Allowable Subject Matter

3. Claims 1 thru 3, 5 thru 40, and 45 are allowed. The following is an examiner's statement of reasons for allowance: The references of record, either singularly or in combination, do not teach or suggest at least a circuit comprising: a first terminal that outputs an operating point; a first circuit group charging the first terminal; a second circuit group discharging the first terminal; an applying portion applying a weighted mean of a plurality of inputs to one or both of the first circuit group and the second group; a spin transistor being included in one or both of the first circuit group and the second circuit group; an output terminal that outputs a Boolean function of a plurality of inputs based on the operating point.

Regarding claim 45, the references of record, either singularly or in combination, do not teach or suggest at least an integrated circuit comprising: a first terminal that outputs an operating point; a first circuit group charging the first terminal; a second circuit group discharging the first terminal; an applying portion applying a weighted mean of a plurality of

inputs to one or both of the first circuit group and the second group; a spin transistor being included in one or both of the first circuit group and the second circuit group; an output terminal that outputs a Boolean function of a plurality of inputs based on the operating point.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
